

Modular Millwork® Lab Stool by American Lab Design

Stool with
Book Basket

Stackable Stool
without Basket

Comfort, function and durability are the hallmarks of our basic stool. Built to withstand years of student use, the stool is constructed of 3/4", 14-gauge steel, and the modified A-frame design is strong and stable. The stool is comfortable and efficient when in use and the no-basket option allows you to stack and store when needed.

Stools are available in two heights and compatible for counter heights of 30-36".

All **ALD Stools** come with an unconditional **Lifetime Warranty**.

- Durable Steel A-frame design provides a strong and long-lasting seating solution.
- Powder Coated, emitting zero VOCs.
- Available in two heights and with or without book baskets
- No-basket option allows you to easily stack and store when not in use.
- Wide A-Frame design prevents students from tipping and leaning in stools.
- Seat measurements: 12" deep x 17" wide
- Load Rated at 250 lbs. +
- Unconditional Lifetime Warranty
